

PARSONS SAYS IT'S ALL TRUE

REPEATS STORY OF TAMMANY DEAL UP-STATE.

Says He Can Back Up His Statement That Republican Leaders Sold Out Organization Here to Help Cannon—Raines' Son Is on the Tammany Payroll.

Herbert L. Parsons, of the Republican county committee, repeated yesterday the charges he made on Saturday that there had been a deal between the up-State Republican leaders and Tammany, whereby an agreement was reached to kill the bills introduced at Albany last year to prevent election frauds if the Tammany Representatives in Congress would come to the aid of Speaker Cannon and help him to defeat the insurgents who wanted to throw down the Cannon rules.

Mr. Parsons said yesterday that while he had full knowledge of all the men concerned in the deal both in Albany and in Washington he was not yet prepared to give out their names. He said that he knew that making the charges he was putting himself in bad with the State Republican machine, and was also laying out trouble for himself in Washington. He added that now that he had started on the fight for purer elections in this city he would carry it through to the end, no matter what the cost to himself politically.

Mr. Parsons said that the only way to defeat Tammany frauds in this city was to have enacted such bills as were presented at Albany and that if necessary to get those bills passed he would make the matter a State issue.

"We will have a State convention next year," said Mr. Parsons, "and if the Legislature at Albany does not pass the bills which I intend to fight it in the convention, Senator Raines, I intend to have said that I am young in the political business. That is true, but the fact that I am younger in politics than he shows that I expect to be in the political business longer than he does. I am going to keep at the task that I have set myself of securing such legislation as will prevent frauds in this city until I have achieved my aim."

"Frauds at the polls can be stopped here, and I think if I am at the head of the county committee for two or three years more I can, with the assistance of the up-State Republicans who are in sympathy with the attitude I have taken, succeed in getting such legislation passed."

Mr. Parsons yesterday did not place much stock in the criticisms made upon him by Congressman George R. Malby and State Senator Raines. Mr. Malby's complaint, he said, that the charges he had made only tended to hurt the State organization were not worth considering, because they were as old as the hills and were the usual outcry of the up-State Republicans when they were hit.

"With regard to what John Raines has said of me it will be time enough for him to talk when the name of Charles T. Raines is taken off the Tammany payroll."

Charles T. Raines, son of the Senator, is an auditor of accounts in the financial department at a salary of \$3,000 a year and was appointed in April, 1908.

Speaker Cannon in commenting on the charges made by Mr. Parsons has said that the reason for the outbreak made by the chairman of the Republican county committee was that he was disgruntled because he was not appointed at the beginning of the year to a place on the Interstate Commerce Committee in Congress.

Friends of Mr. Parsons said yesterday that it was true that Mr. Parsons had asked Speaker Cannon to give him a place on the committee and that he had been turned down. It was explained by these friends of Mr. Parsons that the reason why he did not get a seat on this committee was principally because he supported the message sent to Congress by President Roosevelt in the matter of the secret service dispute.

"Parsons became known as a Roosevelt man and one of his friends yesterday said that he got a letter from Speaker Cannon, but although he and every one else in Congress knew of this, he never opened his mouth until now, and that he is sincere in letting the facts be known at this time because of his wish to get such legislation passed at Albany next year as will prevent Tammany from playing its old time games in the future at the polls."

Mr. Parsons himself, replying yesterday to the statement made by Speaker Cannon, said:

"The Speaker is always complaining that so many men in public life are cowardly. He can hardly criticize me now if I try to follow his advice and show some courage. I stand emphatically by my original statement. I intend to make a deal between some up-State Republicans and Tammany men to get support for Cannon and his rules. That assertion is true and if necessary I can back it up."

"I did not believe it myself until I learned of the true facts which prevented the passing of the honest election bills. I have been fighting for ten years and I will use the remainder of my life to secure an honest election in New York city. When any up-State organization combines to prevent honest elections here then I intend that the public shall know all about it."

The bills which Mr. Parsons complains were not adopted were amendments to existing election laws strengthening the signature, identification and householder acts which were passed at the previous session. One amendment required an additional column in the poll book which was to be initiated by the inspector, showing that he had compared the record of registration day with that of election day. The purpose of this was to fix responsibility for honest elections. Another amendment provided that registration signatures should be made in a book other than the one left in the polling booth. The signature book was to be placed in the hands of the Board of Elections, so that it could not be defaced or the signatures changed or destroyed.

DANVILLE, Ill., Oct. 4.—When asked today concerning the charges of Herbert Parsons of New York about a Tammany deal with up-State Republicans, Speaker Cannon said:

"I have absolutely no information on the subject. There is nothing in the story. I have never entered into a deal of any kind at any time with Tammany Hall."

Speaker Cannon refused further to discuss the charges made against him. He left today for a visit to Iowa.

NO BRONX FUSION YET.

Conferees Unable to Agree on Candidates—Heard Man Withdraws.

The fusion forces of the Thirty-second, Thirty-fourth and Thirty-fifth Assembly districts of the Bronx met last night at the Bronx lay-out, at Fulton avenue and 16th street, but were unable to decide upon candidates. The Republicans, Citizens Union, committee of 100 and Cleveland Democrats were represented.

Arthur Lange, representative of the Independence League, was late in arriving. When he got there and found that the conference had started without him he withdrew. The conferees, unable to decide upon candidates, adjourned to to-morrow evening. Lawyers Douglas Matthews and the only Republican assemblyman who has been elected in the Thirty-fifth Assembly district in thirteen years, is mentioned as the most probable fusion candidate for the Borough Presidency of the Bronx.

BANNARD RECEIVES CALLERS

OLD FRIENDS DROP IN AND MR. IVINS GIVES ADVICE.

Tells Bannard to Go to Bed on Election Night and Not Wait for the Returns—Bannard Has Trouble in Registering—False Story About Whitman.

When Otto T. Bannard, the Republican nominee for Mayor, announced that for one hour every afternoon his door at headquarters would be open to visitors it was expected that there would be a rush of suffragettes, kickers and, above all, the whisperers. Yesterday was Mr. Bannard's first "at home" day, but the looked for raid did not take place.

Not more than about twenty persons called on him and these were district leaders and personal friends. Among the number were William M. Ivins, Job E. Hedges, Timothy L. Woodruff, Herbert Parsons and Chairman Willcox of the Public Service Commission. They just dropped in. The only one who attempted to give advice was Mr. Ivins.

"I would like to suggest an admirable place for you to spend election night when the returns are being counted," said Mr. Ivins. "I know what I'm talking about because I've tried."

"Thanks, old man; where is it?" eagerly inquired Mr. Bannard.

"Bed," replied Mr. Ivins. "When the polls are closed go home and go to bed and don't give a hang for the returns. The papers will give you the result next morning."

When Mr. Bannard went to register yesterday morning in the Seventh election district of the Twenty-ninth Assembly district the inspector didn't catch his name and asked him to spell it. The nominee did so, but even then the inspector didn't get the name properly and was writing "Ballard" when he was stopped by the Republican candidate.

"My name doesn't seem to be very well known as yet, but I rather think it will be before election day. My name is Otto T. Bannard. It's being passed up all over the city and I should have thought that you would have seen it somewhere by this time."

The registration official tumbled. He consulted Mr. Bannard on the nomination. Mr. Bannard gave out a statement last night saying:

"In my speech of acceptance I said: 'A free and fair election is our fundamental right, and a ballot thief is no better than a burglar or a murderer.'"

"Evidence multiplies that Tammany is preparing extensive frauds. This is indicated by the fact that they have taken place at the recent primary. I owe it to the many thousands of my fellow citizens who will vote for me to prevent if possible the effecting of a single honest vote by a dishonest vote. To do this I call upon all good citizens to watch the registration lists in their own localities and to report at these hours to my headquarters where found. Such reports will be immediately investigated and action taken."

Mr. Bannard said last night that a report had been brought to him by several Republicans that he was going to make a deal between some up-State Republicans and Tammany men to get support for Cannon and his rules. That assertion is true and if necessary I can back it up."

Prof. Uherkevich de Uherkevich's Filer. The directors of the Bayonne Aerial Navigation Company met yesterday and voted to hurry up the construction of the airship invented by Prof. J. Uherkevich de Uherkevich. The professor says his flier will initiate the flight of a bird. The wings are to be 27 feet long, 66 feet from tip to tip and covered with silk. A 30 horse-power motor will furnish the power. The craft is designed to carry three persons.

The Weather. There was no storm evident yesterday in any part of the country. The pressure was high everywhere east of the Rocky Mountains, except where it was falling over southern Florida. The pressure was low over the extreme Northwest and Southwest and high on the Pacific coast. It was generally cloudy over the lower lake regions and middle Atlantic and New England States.

Showers occurred at some points in the Rocky Mountain section, but elsewhere the weather was generally fair. It was warmer in the Dakotas and eastern Montana and in the east Gulf States, Tennessee Valley and northeast into Pennsylvania. In the middle Mississippi Valley, upper lake regions and New York it was cooler.

In light frost occurred in eastern New York. In this city the day was cloudy; little temperature change; wind, light northeast to southeast; average humidity, 75 per cent.; barometer, corrected to read to sea level, at 3 A. M., 30.22; 3 P. M., 30.25.

The temperature yesterday, as recorded by the official thermometer, is shown in the annexed table:

Highest temperature, 62°; at 10 A. M. 58°; at 1 P. M. 62°; at 4 P. M. 60°; at 7 P. M. 58°; at 10 P. M. 55°; at 11 P. M. 52°; at 12 M. 50°; at 1 P. M. 48°; at 2 P. M. 45°; at 3 P. M. 42°; at 4 P. M. 40°; at 5 P. M. 38°; at 6 P. M. 35°; at 7 P. M. 32°; at 8 P. M. 30°; at 9 P. M. 28°; at 10 P. M. 25°; at 11 P. M. 22°; at 12 M. 20°; at 1 P. M. 18°; at 2 P. M. 15°; at 3 P. M. 12°; at 4 P. M. 10°; at 5 P. M. 8°; at 6 P. M. 5°; at 7 P. M. 3°; at 8 P. M. 1°; at 9 P. M. -1°; at 10 P. M. -3°; at 11 P. M. -5°; at 12 M. -7°; at 1 P. M. -9°; at 2 P. M. -11°; at 3 P. M. -13°; at 4 P. M. -15°; at 5 P. M. -17°; at 6 P. M. -19°; at 7 P. M. -21°; at 8 P. M. -23°; at 9 P. M. -25°; at 10 P. M. -27°; at 11 P. M. -29°; at 12 M. -31°; at 1 P. M. -33°; at 2 P. M. -35°; at 3 P. M. -37°; at 4 P. M. -39°; at 5 P. M. -41°; at 6 P. M. -43°; at 7 P. M. -45°; at 8 P. M. -47°; at 9 P. M. -49°; at 10 P. M. -51°; at 11 P. M. -53°; at 12 M. -55°; at 1 P. M. -57°; at 2 P. M. -59°; at 3 P. M. -61°; at 4 P. M. -63°; at 5 P. M. -65°; at 6 P. M. -67°; at 7 P. M. -69°; at 8 P. M. -71°; at 9 P. M. -73°; at 10 P. M. -75°; at 11 P. M. -77°; at 12 M. -79°; at 1 P.
